

Thank you for subscribing to receive sustainability and community news from Foster's. Our sustainability effort is focused on improving the way we operate in four key spheres: our workplace, marketplace, environment and community. Through our subscriber updates, we hope to give you a flavour of developments across this wide range of issues over the coming months. We hope you find our first update of some interest, and would be pleased to receive feedback. Simply email your thoughts to inthecommunity@fostersgroup.com and help us continue to improve in this important and challenging effort.

And the nominees are

Foster's is delighted to have been nominated for an Australian Sustainability Award. Now in its 6th year, the Australian Sustainability Awards recognise outstanding environment and community contributions, as well as excellence in corporate governance. Winners will be announced on December 11, 2006. www.ethicalinvestor.com.au/ethical_awards/

Good Environmental News to Report

This reporting season, Foster's published a 'short form' A5 Business Overview instead of the full, traditional A4 Annual Report. The Overview enjoyed strong takeup among shareholders, fewer than 30% of whom now receive a printed Annual Report. The Overview was also printed on paper stock certified by the Forest Stewardship Council. We are confident that even more shareholders will choose online and / or Overview reports next year, helping us to further lessen the environmental impact of our reporting obligations.

Ryecroft Winery innovates to save water

Rosemount Estates, Ryecroft Winery has been awarded a special commendation at the McLaren Vale Grape Wine and Tourism Association Environment Awards. The commendation recognised the Ryecroft team's innovative techniques in winery water quality and general waste management. Foster's internal Waste Water Working Group is reviewing Ryecroft's techniques for possible broader application across the business.

Penfolds Koonunga Hill - sharing the success

To celebrate the 30th anniversary of Penfolds Koonunga Hill, five of Australia's leading names in fashion, food, science, sport and literature have created a unique collection of limited edition bottle designs. To help mark the occasion and share our success, Penfolds has also donated more than \$50,000 to the favourite charities of the participating Aussie icons. www.penfolds.com.au

Men's health in focus

The charity Movember aims to change the face of men's health this month, with a little help from Foster's! More than 40,000 blokes across Australia, including 250 from Foster's, are growing moustaches to raise awareness and funds to combat prostate cancer and depression. Last year, Foster's Movember team in Kent (NSW) won the award for the most funds raised and this year Foster's is formally on board as a Movember partner. We have helped the organisers drive awareness and boost participation more than 300% compared to 2005. Funds raised this year are likely to top \$3,000,000 - a fantastic result for very worthy causes.
